

3-Gun Nation: The Nosler Cup and “King of the RANGE”

The vision behind 3-Gun Nation has been to grow the sport in every way possible. To neither dismiss nor overlook any potential avenues, but to consider 3-Gun as a community of competition shooters who shoot rifles, pistols and shotguns. And not just within the context of 3-gun, but as shooters who enjoy any gun game with any of the guns in most any configuration!

So, it should not be a surprise to see Precision Rifle-style events creep into the mix. Or as the crew behind 3-Gun Nation does it - jump in with both feet, get it going and tune it as you go!

That leads me to the 3-Gun Nation “Nosler Cup” and “King of the Range” events coming up very soon at the Central Oregon Shooting Sports Association (COSSA) facility outside of beautiful Bend, Oregon.

The Nosler Cup is comprised of three stand-alone shooting events. A 5-stage, run-and-gun 3-Gun match with all the fun you would expect from 3-Gun Nation ... AND a 10-Stage “time-plus” long-range match where the targets are twice as far as traditional 3-Gun! Shoot one or the other: win, place or show at one or the other, in the division of your choice. OR Enter the “King of the Range” match where you will shoot the 3-Gun match in the Practical Division on Saturday and then use a Gas Gun in either .223 or .308 to compete in the 5-Stage PRS-style match on Sunday. Do that (you are going to have some fun) and your combined scores will put you in the running to be crowned as KING OF THE RANGE! How cool is that!?!?!?

Of course you have lots more options available to if you are not “gunning for King.” For the 3-gun match you can shoot the very popular PCC division, or Practical or Practical .308 or Factory or Heavy or Unlimited divisions, but again if you are going for the KING’s crown you must shoot Practical.

On the Long Range side of the house, again you have options on how you enjoy your day ringing long-range steel. Bolt guns, Gas gun and subsets of those can be enjoyed, but to earn the moniker as King of the Range ... a Gasser in 308 or 223 is required.

You can shoot the stand-alone 3-Gun match either day if you are so inclined. The stand-alone 10-stage Long Range match will have you on the range both Saturday and Sunday, shooting five stages each day. However, test your skills against the assembled “Knights” in order to don the Crown; you will shoot both the five-stage 3-Gun and a five-stage Long Range match!

So ... you haven't signed up yet? Yea I know, it is kinda short notice, but click on the link and let's get this thing going. I hear its good to be the King. See you all there!
